Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Maintain regional stormwater website and information library for reference and use by regulated MS4s and the general public in the SUA.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The stormwater website is successfully functioning as a public education tool based on the 3,309 total recorded "hits" during the current reporting period, including 126 hits to the online library. It should be noted that last years statistics were extrapolated from 3 months of data due to the timing of a server change. This years statistics are the most accurate and representative of real visitors to the site and should provide the baseline for comparison going forward.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

New information will continuously be added to the regional stormwater website and dated information will be removed. Content will continue to be restructured to facilitate improved ease of access. The website will be promoted as an educational tool for the general public and stormwater professionals in both the private and public sectors.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Extensive info relative to good housekeeping practices currently employed by MS4s in the SUA was compiled through interviews, informal surveys & review of previous MS4 Annual Reports as part of the Water Treatment Modeling program to assess compliance with permit requirements. Discussions with MS4 reps indicated that MS4s are largely implementing comprehensive good housekeeping programs, but some MS4s may not be capturing the full extent of their total efforts on paper.
